Dear Mr. Roskam:

This is in response to your letter of May 28, 2014 concerning Mr. (b) (6) desire for an age waiver to enter the Nuclear Propulsion rating of the United States Navy.

For your information, Navy policy requires all applicants desiring the Naval Nuclear Propulsion ratings be younger than 25 years of age prior to their active duty shipping date to Recruit Training Center (RTC). Age waivers are not authorized.

Due to the landscape of recruiting and an overwhelming response of applicants, we had already identified our accession goals for the Nuclear Propulsion rate.

There is very keen competition for the available vacancies in this rating. However, Mr. (b) (6) is encouraged to remain in contact with a Navy recruiter should he desire to enlist in another rating.

Thank you for bringing your concerns to our attention. We appreciate Mr. (b) (6) desire to serve our Nation in the Navy and regret that this reply cannot be favorable.

Sincerely,

(b) (6)
